Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Awareness & Input	Stage 2 Analysis & Output	Stage 3 Decision & Action
Actions What does the customer do?	• Opens OptiCrop in browser • Reads homepage description • Clicks 'Try crop recommendation'	• Enters N, P, K, temp, humidity, pH, rainfall • Clicks 'Fetch weather' for auto-fill • Submits the form	• Views recommended crop + confidence • Reads fertilizer advice • Checks disease detection page
Touchpoint What part of the service?	• index.html homepage • Navigation bar • Feature cards	• recommend.html form • GPS / city weather widget • Scenario 1 & 2 mode tabs	• Recommendation result card • Fertilizer guidance panel • disease.html upload form
Customer Thought What is the customer thinking?	• Is this tool accurate enough? • Will it work for my region? • Do I need to create an account?	• Am I entering these values correctly? • Can I trust the weather auto-fill? • What is the difference between Scenario 1 and 2?	• Should I trust the AI recommendation? • What fertilizer do I actually buy? • Can I test this on a diseased leaf photo?
Customer Feeling	Curious, slightly sceptical, hopeful	Focused, mildly uncertain about input values	Relieved, informed, and more confident
Process Ownership Who is in the lead?	Frontend: index.html + styles.css	Backend: server.py /api/recommend ML: crop_model.joblib (RF ensemble)	Backend: /api/fertilizer, /api/disease /api/image-disease, /api/analytics
Opportunities How can we improve?	• Add local language toggle • Add tutorial video on homepage	• Add tooltip hints for each input field • Show ideal value ranges per crop	• Add yield estimate per acre • Enable PDF export of full recommendation
